A. Single Source Items - *Description:	\$0.00	\$0.00	\$0.00	\$0.00
B. Limited Competition - *Description:	\$0.00	\$0.00	\$0.00	\$0.00
C. Full & Open Competition - *Description:	\$0.00	\$0.00	\$0.00	\$0.00
D. Restricted Disadvantaged Competition - *Description:	\$0.00	\$0.00	\$0.00	\$0.00

Describe the principal supplies and services to be subcontracted and identify what will be subcontracted to S/SDB/WOB/HUBZone/HBCU/MI/VOB/SDVOB:

Science Applications International Corporation has received an "Outstanding" rating from DCMA-San Diego for our Small Business Compliance Review and is committed to continue participation in the program. These efforts have proven effective with actual direct awards of over 47.7% to Small Businesses overall with 11.3% going to Small Disadvantaged Businesses and 7.5% going to Women Owned businesses for Government Fiscal Year 2002.

### III. EFFORTS TO PROVIDE TECHNICAL ASSISTANCE OR RESTRICT COMPETITION TO HISTORICALLY BLACK COLLEGES AND UNIVERSITIES AND MINORITY INSTITUTIONS

In accordance with the requirements of DFAR 219.705-4, subcontracting requirements for this plan  
**DO** \_\_\_\_\_ **DO NOT**   x    
 afford the opportunity to provide technical assistance or restrict competition to HBCU/MIs.

If **DO** is checked above, provide explanation of contemplated technical assistance:

If **DO NOT** is checked above, provide explanation or reason for non-applicability to this plan:

**Utilized 3 State Universities – No known Minority or Black Universities known for this type work.**

### IV. METHOD USED TO DEVELOP GOALS

- A. Proposed subcontracting goals as identified in Section I, F. Subcontracting Goal Summary was developed by a joint pre-proposal review of the solicitation statement of work and performance requirements. The joint review involved program, technical and procurement personnel including, the Corporate Small Business Liaison Officer, Group Manager, Contract Representative and the proposed Subcontracting Plan Administrator.
- B. Criteria considered in the review process included:
  - 1. Review of the solicitation statement of work.
  - 2. Identification of the requirement for goods and services.
  - 3. Identification of the potential to subcontract for goods and services.
  - 4. Make - Buy Analysis.
  - 5. Identification of potential suppliers.
  - 6. Categorization of source requirements based on single source, limited competition and open competition as provided by the marketplace or could potentially be developed.

## **V. INDIRECT AND OVERHEAD CHARGES**

Indirect and overhead charges are not included in this subcontracting plan.

## **VI. METHOD OF IDENTIFICATION /SOLICITATION**

The development of goals as described in Section IV resulted in the identification of potential/proposed subcontracting opportunities. The review process identified provided a categorization of items available from single sources, limited competition and full and open competition. Some single source items are available from "only qualified sources" as determined from previous programs of a similar nature.

Items available for limited or open competition provide the opportunity to subcontract to S/SDB/WOB/HUBZone/HBCU/MI/VOB/SDVOB. These prospective sources were identified through the mechanisms identified in Section III(c) of the Master Subcontracting Plan.
